

AM8328 system is a set of perfect modernized Multi-Room Music System. In addition to all the functions the traditional household audio should have, this set of system has two special function:

1. Listening different music programs in different rooms. For example: There is the difference in the music loved by the elderly and young people. In the room in which the elderly will live, the traditional Chinese opera programs may be played; in the room in which the young people will live, the pop music may be played.
2. The timing point function, i.e. the pre setting of the special timing point and the specific task to be performed at such timing point.

## SPECIFICATIONS

<b>Item</b>	Indicator
<b>Quantity of zone</b>	8 Zones
<b>Line input sensitivity</b>	520mV ( $\pm 50$ mV)
<b>Line input resistance</b>	>10k $\Omega$
<b>Rated Output Power</b>	Zone1, 2x100W/8 $\Omega$ Zone2-8, 14x30W/8 $\Omega$
<b>Frequency Response</b>	20Hz-20kHz ( $\pm 0.5$ dB)
<b>THD</b>	<0.3% (f=1kHz, 1/3 of rated output power)
<b>SNR</b>	> 81dB

<b>AUX OUT</b>	Stereo output: 520mV ( $\pm 50$ mV)
<b>Amplifier Output Protection</b>	Output short circuit, overloading, direct current protection
<b>Power Supply</b>	AC220-240V/50-60Hz
<b>Total Power</b>	600W
<b>Power Protection</b>	AC220V/F6A
<b>Package Dimensions (mm)</b>	(LxWxH) 540x540x230
<b>Dimensions (mm)</b>	(LxWxH) 430x345x132
<b>Gross Weight</b>	19kg
<b>Net Weight</b>	14.6kg
