

The CX-DSP40SUB is an outdoor 150W subwoofer speaker with an IP66 rating and a 10" polypropylene cone. It has a frequency response of 20-300Hz and a sensitivity of 86dB. It produces powerful low-frequency noises, providing an immersive audio experience. The tiny size of the CX-DSP40SUB allows for easy insertion and integration into outdoor situations. Its design finds a combination of high-quality audio output and cost, making it an excellent alternative for anyone wanting a reliable outdoor speaker system.
