

CX-DSP5050 Waterproof Wall Mount Speaker is designed to redefine a new design trend in the wall mount speaker market, combining beauty, durability, performance, and user friendliness into a single core concept. This speaker can provide flawless audio as well as clean and clear announcements for public address systems. The Unique Rear Covers not only help to cover the Euroblock Connector and Bypass Selector (PA Transformer) in the rear of the speaker, but they are also designed to blend smoothly with the OBE Bass Radiator and the overall look of the speakers, adding a touch of modern refinement.
