

The CX-DSP5053 is a 30W pendant loudspeaker with high-quality voice, music reproduction functions, and a long transmission sound distance. It will provide clear bright sound and outstanding coverage to rooms and venues with open architecture or high-ceiling spaces, as well as superior voice and musical clarity in rooms with difficult acoustics. The straightforward appearance, combined with the stylish design, makes it perfect for use in conference rooms, retail malls, exhibition halls, and other indoor settings.
