

The rock-shaped outdoor speaker is the product in question here. In addition to having a high mechanical strength and a long service life, it is constructed out of resin of superior quality and utilises a waterproof unit. It can be used in a variety of settings, including schools, parks, squares, lawns, and other areas. Because it contains a number of power terminals, the user is able to choose the appropriate power choice for connection according to their requirements.

SPECIFICATIONS

Model	DSP643G	Voltage	70/100V
Rated Power	20W	Full Range	6.5" x 1
Sensitivity	87±2dB	Max. Power	40W
Max. SPL	100±2dB	Dimension (L×W×H)	380×250×320mm
Effective Frequency Range	100Hz-15kHz	Weight	5.0Kg
