

CX-DSP643G is a landscape garden speaker with a 70v/100v transformer. The 70v/100v transformer approach decreases line losses over longer distances and enables for simple parallel connecting of several loudspeakers. The high-quality resin container is rock-shaped and waterproof. It has a thick damage-proof coating. Simple and secure installation in an outside environment. It is an excellent solution for industrial and commercial applications in outdoor settings such as train stations, shopping malls, parking lots, and factories that require background music and paging.
