# CX-MAG880R

8x8 Audio Matrix Switcher

A remote paging microphone that is compatible with the CX-MAG808 Digital Audio Matrix Public Address System is known as the CX-MAG808R. MICs are functional remote paging devices, and each MIC has the ability to operate eight zones. In addition to supporting multi-level extension, each zone is capable of achieving independent control or a switch that only requires one key.

## SPECIFICATIONS

<b>Model</b>	CX-MAG880R	<b>MIC frequency response</b>	100Hz ~ 15kHz ( ±3dB )
<b>Power</b>	~ 220V/50Hz	<b>Noise</b>	<1.5mV
<b>MIC1 input sensitivity</b>	45±5 mV	<b>Distortion</b>	<0.5% 1KHz
<b>Net port input sensitivity(Balance )</b>	2000±100mV	<b>ACpower</b>	AC220V
<b>Net port output voltage(Balance )</b>	2000±100mV	<b>Machine Size(L×W×H)</b>	231.5mm×145.5mm×67.5mm
<b>Chime rated output level</b>	≤1000mV	<b>Packing Size(L×W×H)</b>	282mm×200mm×264mm (1PS)
<b>Output control signal type</b>	RS485 + Analog audio signal ( net port )、10Pcomputer extension socket and priority dial	<b>Gross Weigh</b>	1.75Kg
		<b>Net Weigh</b>	2.0Kg (1PS)
